Colorado

Xcel *Energy* ®

Renewable*Connect® Flex

Terms and Conditions for Businesses

Pricing and Billing

A Renewable*Connect Flex charge will appear as a separate line item on your monthly Xcel Energy bill, charged against the number of Renewable*Connect Flex kilowatt-hours (kWh) you purchased.

The Renewable*Connect Flex rate is in addition to the full retail rate and is set at $1.00 per 100 kWh block. Remember that Renewable*Connect Flex charges will be calculated on your actual monthly Xcel Energy bill. If your electricity use is less than your level of Renewable*Connect Flex commitment, you will be charged only for what you use.

Boulder Businesses that sign up for Renewable*Connect Flex receive a credit toward the Climate Action Plan tax. The credit does not appear as a separate line item on the bill and is instead included in the Climate Action Plan tax line item on your bill.

Contract Term

We do ask for a 3-year subscription term for business customers, however, there is no early cancelation penalty. You will continue to participate in Renewable*Connect Flex on a month-to-month basis unless you notify us of a change in your commitment. Please allow 30 days for your change to be effective. The Renewable*Connect Flex rate can change over time, pending approval from the Public Utilities Commission of Colorado.

You may cancel your Renewable*Connect Flex subscription by calling customer service at 800-481-4700. There is no termination fee.

Resource Mix

Renewable*Connect Flex is supplied by Colorado wind and Solar.

Special provision for 100% customers

For customers purchasing 100% Renewable*Connect Flex, Green-e Energy allows a percentage of a product's content to be satisfied by renewable portfolio standard (RPS) state-mandated renewables up to the percentage RPS requirement. For example, if the RPS is set at 5%, up to 5% of the Green-e Energy Certified product can be satisfied with renewable power purchased to meet a mandated Renewable Portfolio Standards requirement. This applies only to customers that purchase 100% of their electricity use from Renewable*Connect Flex.

Colorado Certified Renewable Percentage

At least 38% of retail electricity sales is renewable. For more information, visit xcelenergy.com.

100% Green Energy

Renewable*Connect Flex is Green-e Energy certified and meets the environmental and consumer-protection standards set forth by the nonprofit Center for Resource Solutions. Learn more at www.green-e.org.
