Registration terms and conditions

1. Introduction:

Xcel Energy has created a rebate program for homeowners whose homes were destroyed in the Marshall Fire in Boulder County, December 30, 2021, through January 1, 2022, and listed as destroyed on Boulder County's Marshall Fire Damage Assessment List (<https://assets.bouldercounty.gov/wp-content/uploads/2022/01/marshall-fire-damage-assessment-list.pdf>). Rebates are available to rebuilding customers and to new residents.

There are two classes of program eligible customers:

- Rebuilding customers are defined as customers who owned a home listed as destroyed in the fire, and who have taken possession of a new home on a parcel that had a destroyed home.
- New residents are defined as customers who did not own a home listed as destroyed in the fire, and who have taken possession of a new home on a parcel that had a destroyed home.

This Rebate Claim Form (the "Form") is an application for rebates as part of the Marshall Fire Recovery Reconstruction Program.

These Form terms and conditions govern the rebate claims for the Marshall Fire Recovery Reconstruction Program (the "Program") of Public Service Company of Colorado, a Colorado corporation doing business as "Xcel Energy."

The Program is subject to change without notice.

2. Program Rebate Application:

The Form must be received by, and all home reconstruction must be completed and ready for inspection by Xcel Energy or its agents, by 12/31/2026. Home reconstruction must be completed and ready for inspection within two years of registration acceptance by Xcel Energy to be eligible for Program rebates. Account holders may not apply for any additional Xcel Energy rebate programs for the same home reconstruction. Builders are eligible for Energy Star New Homes program rebates. Once home reconstruction is complete and ready for inspection, documentation is required to support the achieved performance tier and must be submitted within ninety (90) days of final inspection. For Home Energy Rating System (HERS) rated homes, an electronic energy modeling file must be submitted to Xcel Energy after final inspection.

3. Program rebate payments:

The payment of Program rebates will be contingent upon the "as-built" home being constructed with all of the energy saving characteristics, materials, and equipment required to meet the achieved performance standard indicated on the Form submitted after final inspection.

Payments require an active account with an active premise at the time of submission. If the account or premise is inactive at the time of submission, payment will be made to the customer whose account is tied to the premise once the premise is active. Only one payment will be issued per premise.

Xcel Energy issues rebates in the form of checks. Xcel Energy is not responsible for any inaccurate information regarding the Program provided by customer's contractors, including inaccurate information regarding rebates or equipment eligibility.

Rebates will be paid on a completed and inspected as-built home. The Program may be cancelled or modified with thirty days' notice. Xcel Energy reserves the right to refuse rebate payments and participation if the customer or its contractor violates Program rules and procedures. Please allow eight weeks for the rebate to arrive.

Xcel Energy will not provide or pay directly for the services of a HERS rater.

4. Program limitations:

Xcel Energy is not liable for customer's contractor's misrepresentations regarding the Program. Xcel Energy will not expressly or implicitly warrant the performance of the as-built home.

5. Program governing law:

The Program, its related forms and any Program terms and conditions, are governed by the laws of the State of Colorado.

6. Program questions

If you have questions regarding this form or any other forms related to the Program, please contact Xcel Energy Customer Service at 800-895-4999, or by email at rebates@xcelenergy.com or CustomerService@xcelenergy.com.

7. Mailing Instructions:

Xcel Energy Rebate Operations, P.O. Box 829, Minneapolis, MN 55440-0829

Email application to: rebates@xcelenergy.com. Subject line of e-mail should be: "Marshall Fire Recovery" and the future address of the home.

HERS Raters can submit the Form and supporting documents through HouseRater.
