

Commercial Refrigeration Efficiency

Rebate Application

Opportunity ID: _____

Call **612.455.7803** or email **XcelMNRrefrigeration@mncee.org** to schedule your free, no-obligation Commercial Refrigeration Efficiency assessment.

Customer information

Xcel Energy premises numbers: Electric: _____ and/or Gas: _____

Company name _____ Date submitted _____

Installation address _____ City _____ State _____ ZIP _____

Mailing address _____ City _____ State _____ ZIP _____

Contact name (PRINT) _____ Phone _____

Contact email* _____ Fax _____

Equipment location description (REQUIRED) _____

The total project cost: \$ _____

Customer signature _____ Date _____

This signature is required from the individual tied to the Xcel Energy premises number herein. By signing here, I acknowledge the information in this application is accurate and complete. I confirm I have read, agree with and understand the terms and conditions on page 2 of this application. I also authorize Xcel Energy to provide a copy of the project preapproval notification to the equipment supplier or vendor so as to expedite the project process.

Alternative rebate recipient

Complete this section only if the customer wants the rebate check to go to someone other than the customer contact tied to the premises number above.

Company name _____ Contact name _____

Address _____ Phone _____

City _____ State _____ ZIP _____

I authorize the above company to receive the rebate check for this project.

Customer signature _____ Date _____

Xcel Energy account representative name _____ Signature _____

Trade partner information (vendor/contractor information)

Company name _____ Trade partner ID# _____

Contact name (PRINT) _____

Address _____ City _____ State _____ ZIP _____

Contact email* _____ Phone _____

*By providing your email address, you are granting Xcel Energy permission to send updates or questions via email regarding this project as well as future emails regarding our programs and services.

Qualifying customers

Xcel Energy Prescriptive Rebate programs are available to Xcel Energy business electric and/or gas customers that install qualifying equipment in Xcel Energy's Minnesota service territory.

How to apply for rebates

1. Fill out the rebate application (for each installation address).
2. Attach a copy of the paid, itemized invoice(s). Be sure that the quantity, make, model number and unit price of each item appears on the invoice.
3. Make a copy of this document for your records.
4. If you have questions please contact your Xcel Energy account manager or one of our energy efficiency specialists to discuss and/or complete the project application form.
5. You can email your completed project paperwork to: XcelMNRefrigeration@mncee.org, or mail to: Center for Energy and Environment (CEE), Commercial Refrigeration Program, 212 3rd Avenue North, Suite 560, Minneapolis, MN 55401.
6. Once completed paperwork is submitted, rebate payments are usually made in six to eight weeks after the rebate application has been processed.

Custom efficiency rebate program

Equipment that is not eligible for prescriptive rebates can be submitted through the Custom Efficiency program. **Preapproval through the Custom Efficiency program is required before the purchase and installation of equipment.** The Custom Efficiency rebate application and program details can be found at xcelenergy.com/CustomEfficiency.

Rules and requirements

- All equipment must be new. **Used or rebuilt equipment is not eligible for a rebate.**
- Equipment must meet program specification requirements and be purchased, installed and operating prior to submitting an application for a rebate. Xcel Energy reserves the right to withhold payment for products that do not meet the requirements.
- Rebates cannot exceed 60 percent of the project cost (including equipment and labor).
- A signed application and detailed installation invoice(s) must be completed and submitted to Xcel Energy within 12 months (24 months for motors, VFDs and constant speed motor projects) of the invoice date.
- Xcel Energy is not responsible for any lost, late, stolen, illegible, misdirected or postage-due mail.
- All completed submissions become the property of Xcel Energy upon receipt and will not be returned.
- Xcel Energy will issue a rebate in the form of a check.
- Xcel Energy reserves the right to conduct a random on-site inspection of your project before or after issuing a rebate. The customer agrees to provide reasonable access to inspect the installation. On-site inspections may be performed up to one year after the date the rebate check is issued.

If Xcel Energy finds that the application does not comply with Xcel Energy rules and qualifications, any rebate amount may be adjusted, denied or subject to return.

- Program rules, requirements and offer are subject to changes at any time. Xcel Energy's prescriptive rebate programs are subject to 60 days notice of cancellation. Changes or notifications will be posted at xcelenergy.com/Rebates. The customer and trade partner are responsible for contacting an energy efficiency specialist to determine whether the program is still in effect and to verify program parameters. Call 855.839.8862 or email energyefficiency@xcelenergy.com.
- Xcel Energy reserves the right to refuse payment and participation if the customer or contractor violates program rules and procedures, or local, state or federal regulations. Xcel Energy is not liable for rebates promised to customers as a result of misrepresentation of the program.
- Xcel Energy's acceptance of the application does not guarantee payment of rebate.
- Xcel Energy retains the right to limit rebates or to make adjustments to correct incentive calculations if necessary. Energy savings calculations are estimates and may vary from actual results.

Warranty information

- Xcel Energy does not endorse any particular manufacturer, product or system design by offering these rebates.
- Xcel Energy will not be responsible for any tax liability imposed on the customer as a result of the payment of rebates; does not expressly or implicitly warrant the performance of installed equipment (contact your contractor for detailed equipment warranties).
- Xcel Energy is not responsible for the proper disposal/recycling of any waste generated as a result of this project; is not liable for any damage caused by the operation or malfunction of the installed equipment; and does not guarantee that a specific level of energy or cost savings will result from the implementation of energy conservation measures or the use of products funded under these programs.

Facility characteristics

Please indicate the primary use for this location:

- Convenience store
 Grocery store
 Liquor store
 Restaurant
 Retail/franchise
 Is this a 24-hour facility? Yes No
 Other (please specify) _____

How to apply for rebates

1. Fill out the rebate application. (All information needs to be supplied before a rebate check can be issued.)
2. Mail or email completed and signed rebate form along with paid invoices to: Center for Energy and Environment (CEE), Commercial Refrigeration Program, 212 3rd Avenue North, Suite 560, Minneapolis, MN 55401; or XcelMNRefrigeratin@mncee.org.

Equipment	Specifications	Rebate/unit (x)	Quantity (#)	= Rebate
Anti-sweat heater controls	<ul style="list-style-type: none"> • Install equipment that senses the relative humidity in the air outside of the display case and reduces or turns off the glass door (if applicable) and frame anti-sweat heaters at low humidity conditions. • Equipment must control heaters on frame (mullion) and door. • Anti-sweat heater controls must be installed on standard energy doors. • Controls installed on low-heat doors and/or no-heat doors may be eligible for a custom incentive. • Incentives available for retrofit applications only. 	\$60/door	For cooler: _____ # of cooler doors controlled _____ # of controls purchased For freezer: _____ # of freezer doors controlled _____ # of controls purchased	
Demand control ventilation	Commercial kitchen ventilation hoods with demand controlled capability.	Electric customers: \$400 lump sum (total) for all fans under 5 hp. \$125 per exhaust fan hp for fans 5 hp but less than 7.5 hp. \$100 per exhaust fan hp for fans 7.5hp or greater. Gas customers: \$250 per exhaust fan hp.	Located in kitchen? <input type="checkbox"/> Yes <input type="checkbox"/> No _____ exhaust fan horsepower per unit _____ total exhaust fan horsepower _____ # of exhaust fans	
Electronically commutated motors	Electronically commutated or brushless AC evaporator fan motors that replace SP or PSC motors (does not include condenser fan motors). This incentive is available for retrofits in existing refrigerated display cases and walk-ins, and/or when replacing existing functional refrigerated display cases or walk-ins with new refrigerated display cases. <ul style="list-style-type: none"> • Rebate is not available when replacing non-operational refrigerated display cases or walk-ins. • The equipment invoice must show quantity, model number, horsepower and manufacturer. <i>(Rewound or repaired motors do not qualify.)</i> 	\$40/motor display case	_____ # of motors	
		\$70/motor walk-in	_____ # of motors	
Evaporator fan motor controllers	For controls installed in conjunction with SP evaporator fan motors in walk-in coolers and freezers.	\$35/motor controlled	_____ quantity of individual evaporator fan motors controlled (not the number of controllers installed)	
LED reach-in case lighting	Replace fluorescent display case lighting with LED fixtures.	\$45/door (DLC standard and premium models) \$33.75/door (non DLC listed)	# of doors _____	
New medium temperature reach in case with doors	Installation of new medium temperature reach in case with doors as opposed to new medium temperature open reach in case.	\$70/linear foot of case	Case is _____ linear feet	

Equipment	Specifications	Rebate/unit (x)	Quantity (#)	= Rebate
Night curtain for coolers	<ul style="list-style-type: none"> Applies to permanently fixed night curtain products only. Curtain must be manufactured with low-emissivity perforations or use "breathable" woven aluminum fabric. Both motorized and pull-down versions are eligible. Linear foot measurement is the side to side (not top to bottom) measured width of all installed night curtains. 	\$20/linear foot	For cooler: _____ # of linear feet covered	
			For freezer: _____ # of linear feet covered	
No heat case doors	No-heat (no-energy) doors reduce the total number of heaters needed and instead use additional insulation and coatings to reduce the moisture buildup. Using no-heat doors also reduces the heat load that is added to the refrigerated cases. Available for retrofit or new installations where the existing fixture has a closed case. No heat case doors installed on open cases may be eligible for a custom incentive.	\$100/door cooler case	For cooler: _____ # of doors	
		\$150/door freezer case	For freezer: _____ # of doors	
Retrofit of open multi-deck cases with doors	Retrofit of open multi-deck cooler cases with solid glass doors.	\$50/linear foot of case – coolers	For cooler: Case is _____ linear feet	
		\$75/linear foot of case – freezers	For freezer: Case is _____ linear feet	
Total rebate				

This is an example of an invoice that would allow Xcel Energy to process the rebate application the same day it was received. Invoice(s) submitted must include itemized quantity, price, manufacturer's make and model numbers, and product codes for each material item and/or original equipment manufacturer (OEM) specification sheets. **Itemized invoices are the key to fast processing of rebate forms.**

*These rebates are available specifically for standard retrofit projects in which the lumen output of the proposed system is similar to the existing system and the energy savings is within a reasonably expected range. Retrofits with unusually large or small energy savings and/or lumen reductions must apply through the Custom Efficiency program and obtain preapproval prior to purchase. Contact your account manager or the Business Solutions Center at 855.839.8862 if you have questions regarding your specific application.
